Compared with the IT-E157D, the IT-E157B only lacks the front mounting handles; the rear mounting kit is identical. Therefore, we use the IT-E157B as the example to describe the cabinet depths compatible with the mounting kit.

Parts 1 or 3: Mount to the cabinet's side square-hole rails (vertical rack rails).
 Parts 2 or 4: Mount to the rear side of the IT2700 instrument;
 Part 4 may be cut along the dotted line.
